On this homepage, you will find the **complete [menu](#) of Raspberry Patch Custom Catering The** from Ponoka. Currently, there are **16** menus and drinks available. Nestled in Ponoka, this restaurant offers a varied experience that has left patrons divided. While some diners praise the homemade, fresh food, particularly the family-sized dishes and gluten-free options, others criticize the sandwiches as small and lacking flavor. Although the restaurant excels in catering, particularly for local events, it appears that the quality of its bakery items has declined. Despite the mixed reviews on customer service, many agree that the food remains a highlight, with particular recommendations for the cinnamon buns and soup. Overall, it's a spot worth trying, even if it doesn't cater to every taste.
