The restaurant from Toronto offers **110** different **dishes and drinks** on [the menu](#) at an average price of CA\$17.

The restaurant in question has seen many changes in ownership over the years but unfortunately, the most recent visit was quite disappointing. Diners reported poor service, unclean conditions, and subpar food quality, with one customer even mentioning that their pad thai was made with ketchup. The reviews highlighted issues such as bland flavors, poor attention to allergies, and unappetizing dishes. However, not all experiences were negative, with some customers praising the delicious food offered by the restaurant and the friendly service received. Overall, it seems that while some may find the food enjoyable, others have encountered significant shortcomings in terms of quality and service. Ultimately, it appears that opinions on this establishment may vary depending on individual experiences.
