Very good sea food....love those freshly baked red lobster buns..overall food was good and good ambience.if you are into fish and crabs, this is the place to go. What [User](#) doesn't like about Red Lobster:

You know there's no quality control in the kitchen when the only thing at par was the side. Steak was exceptionally dry and tough. Such a disappointing experience, you could see the server try, however, the food is the biggest disappointment. If you want to sample scrumptious American menus like burgers or barbecue, you're at the right place at Red Lobster in [Regina](#). You can find delicious **South American** meals also on the menu. visitors of the Red Lobster appreciate the varied **Canadian** menus, and you may look forward to the palatable traditional [seafood](#) cuisine.
