What [Peter Steinberg](#) likes about Archeo: Great service! I had the lamb which was super tender, and my wife had the fish which she liked as well. Often booked for weddings on the weekends, so this was a rare time we got to go in and try their food (when not there for a wedding! [read more](#). When the weather is good you can also be served outside, And into the accessible spaces also come visitors with wheelchairs or physiological limitations. What [Savannah Dach](#) doesn't like about Archeo:

Food portions were very small. Many comparable Italian restaurants for similar price range provide better portion size. Very nice location however, loved the interior design and feel. Table size too small, we were fumbling with our dishes to arrange the table constantly. In such a large soave table size could be slightly larger without affecting the feel. Food was delicious! Just not enough of it. [read more](#).
