Here you can find the [menu](#) of **The Wandering Greek Oven** in Castlegar. At the moment, there are **37** courses and drinks on the menu. The Wandering Greek Oven is a local gem that offers decent Greek food with some hits and misses. The lamb dinner impresses with its portion size and flavor, while the scampi lacks spice and the Greek salad is a bit bland. The prices may be a little high for the portion size, but the appetizer platter and selection make up for it. The kids menu is limited and lacks Greek options, but the overall dining experience is positive. Regular customers rave about the Greek Oven special [pizza](#), the classic Greek salad, and the remarkable Rack of Lamb dinner. The service is top-notch, and the menu offers a variety of delicious options like Gyro, Spanakopita, and Calamari. Despite the small size of the restaurant and occasional loud environment, the food quality, service, and unique menu items make the Wandering Greek Oven worth a visit.
