On this website, you can find the **complete menu** of **Take Sushi** from London. Currently, there are **17** menus and drinks available. Take' Sushi used to be a favorite, but recent visits left customers disappointed. Reviews ranged from soggy tempura to oversoaked beef teriyaki. While the service and atmosphere received praise, the decline in food quality was evident across multiple dishes. Some diners suspected changes in ownership or lack of familiarity with Korean cuisine as a factor. Despite the restaurant's large menu and charming ambiance, the decline in food quality appeared to overshadow the positives, leaving many patrons hesitant to return, with only a few standout dishes offered.
